Dhaka, Bangladesh  
[shshamim63@gmail.com](mailto:shshamim63@gmail.com)

## FULL STACK WEB DEVELOPER

[github.com/shshamim63](https://github.com/shshamim63)  
[linkedin.com/in/shakhawathossainshamim](https://linkedin.com/in/shakhawathossainshamim)

### SKILLS

**Front End:** JavaScript, jest, React and Redux, HTML5, CSS3, Bootstrap, Semantic UI, Materialize, Sass/Scss

**Back End:** Ruby, ROR, Rspec, Minitest, PostgreSQL, Capybara, Node.js

**Methods:** Remote Work, Pair Programming, Version Control, Docker

**Tools:** Git, Github, Webpack, Heroku, Netlify, Trello

### EXPERIENCE

MICROVERSE

San Francisco, CA / Remote

**Technical Support Engineer**

October 2019 - October 2020

- Completed 400+ code reviews in React & Redux, JavaScript, Ruby On Rails, HTML, CSS
- Had 1:1 meetings with students to provide specialized technical advice as they worked on projects and provided them technical solutions for complex tasks.
- Mentored 15+ students on their path toward graduation from Microverse.
- Provided continuous feedback to the core team to update the guideline and the course materials.
- Reviewing the merge requests done by other developers on existing projects.
- Helped new code reviewers and coached them to ensure they followed the code review guidelines.
- Maintained multiple repositories that students use.

#### SELECTED PROJECTS:

**Stock Tracker** — Social business app, built with Ruby On Rails

Non Authenticated User:

- Users can look for news about trending stocks among the community.
- Look for a stock current price along with basic information.
- Can sign up with a different plan from a list of plans.

Authenticated User:

- Connect with other stock hunters.
- Communicate among the community through chat.
- Add stocks to their existing inventory.
- Can view another user's profile based on some restrictions.

**Car-Viewer** — API build with Ruby on Rails. Front-end with React & Redux.

Non Authenticated user:

- Renders a list of car models.
- Accept request to create an account and login.
- Renders data of a specific car.

Authenticated User:

- Takes a request to store a test drive schedule.
- Take a request to render the list of appointments for the current user.

### EDUCATION

MICROVERSE

San Francisco, California

**Remote Pair Programming Coding Education**

March 2019 - May 2020

Studied Algorithms & Data Structures, SQL syntax and statements, Full-stack development with Ruby, Ruby on Rails, Javascript, React, and Redux. Over 1500+ hours of remote pair programming with peers around the world, building complex web applications and terminal utilities.

UNITED INTERNATIONAL UNIVERSITY

Dhaka, Bangladesh

**B.Sc in Computer Science and Engineering (3.69 GPA)**

July 2014 - October 2018
